PROJECT REVIEW-2

Date: 17-04-2026

Smart Campus Event Management System

SDG: SDG No – SDG 9 – Industry, Innovation and Infrastructure

Presented By:

A.SNIGDHA REDDY – VTU26260 – 23UECS0539

Courses Handling Faculty:

**Dr. HAFIZUR RAHMAN ASSISTANT
PROFESSOR**

INTRODUCTION

1

The **Smart Campus Event Management System** is a web-based application designed to streamline the management of campus events such as workshops, seminars, and cultural activities.

2

3

It enables:

4

Students to explore and register for events easily

5

Administrators to efficiently manage event details and participants

6

This system replaces traditional manual methods with a **digital, centralized platform**, improving accessibility and efficiency.

7

8

9

PROBLEM STATEMENT

1

➤ Manual event management leads to **data loss and inefficiency**

2

➤ Lack of a centralized system for event updates

➤ Difficulty in tracking registrations and participation.

3

➤ Time-consuming communication between students and admins.

4

➤ No proper analytics for event performance

5

6

7

8

9

OBJECTIVE(S)

1

2

3

4

5

6

7

8

9

- To develop a centralized event management perform
- To enable easy event registration for students
- To provide CRUD operations for admins
- To maintain accurate event records and statistics
- To improve communication and transparency

PROPOSED SYSTEM

1

➤ The proposed system is a **web-based application** that

2

➤ Allows students to browse and register for events

3

➤ Enables admins to create, update, and delete events

4

➤ Provides filtering options (date, department, type)

➤ Displays event statistics and reports

5

6

7

8

9

WORKFLOW

Spring Boot flow architecture

MVC: View Thymeleaf & HTML

Modern server-side Java template engine

1

2

3

4

5

6

7

8

9

TECHNOLOGIES USED

1

➤ **Backend:**

Java, Spring Boot

2

➤ **Frameworks:**

Spring MVC, Spring Data JPA

3

➤ **Frontend:**

HTML5, CSS3, Thymeleaf

4

5

➤ **Database:**

MySQL

6

➤ **Validation:**

Bean Validation (@NotNull, @Size)

7

➤ **Security:**

Spring Security (Basic Authentication)

8

➤ **Server:**

Embedded Tomcat

9

MODULE DESCRIPTION

1

Student Module

View upcoming events

2

Register for events

3

View registered events

Provide feedback

4

Admin Module

5

Add/Edit/Delete events (CRUD)

Manage event details

6

Search events using filters

7

View registration statistics

System Module

8

Authentication & authorization

Data validation

Exception handling

9

ADVANTAGES & LIMITATIONS

1

Advantages:

- 1.** Easy access to event information
- 2.** Saves time and reduces manual work
- 3.** Centralized data management
- 4.** Real-time updates
- 5.** Improves student engagement
- 6.** Accurate reporting and analytics

2

3

4

5

6

7

8

9

Limitations:

- 1.** Requires internet connectivity
- 2.** Basic authentication may have limited security
- 3.** Dependent on server uptime
- 4.** Initial setup complexity
- 5.** Limited scalability without cloud integration

Thank you
